## General and Precise Verbs Worksheet (Matching Part 1)

A general verb is a word that you use in everyday language.
A precise verb is a higher level word that has a similar meaning to the general word. It can be more specific.

Directions: Match the general verb in the left column with the precise verb in the right column. The first one has been done for you.

<u>General</u>                          <u>Precise</u>

1. run                          glad

2. jump                         repair

3. choose                       sprint

4. fix                          simple

5. cry                          pick

6. happy                         weep

7. easy                         hop
